

Professional Objective

To obtain a design position that has potential for growth within the company and has room to continue expanding knowledge of the field, the Adobe Suite, and new technologies in a fun creative environment.

Experience

Graphic/Web Designer, Printer Operator, Page Layout Specialist

Custom HBC June 2006-March 2012

- Web maintenance for customhbc.com using a content management system. Developed animated Flash graphics with interactive areas using ActionScript. Uploaded graphics meeting specs of the CSM.
- Designed graphics for marketing flyers, e-mail, web site, brochures, trade show booths and displays.
- Worked in a team to design 100+ page, and smaller, product catalogs. Directed and took many of the hundreds of product photos. Implemented processes to streamline catalog development.
- Designed graphics to specs set by outside printers and utilized FTP sites to upload art.
- Set up customer provided art. Used many different preflight process to provide the best print.
- Printed on in-house laser printers, ranging from standard 8.5x11 sheets, and multiple page brochures, and round label stock.
- Operated and trained on Primera CX1200 Color Label Press, FX1200 Digital Finishing System and Primera LX800. Also operated and trained on QLS 4100 thermal label printer and VIVO color label printer.

Web Designer / Videographer and Editor

Freelance May 2006-Present

- Assisted in taking blindrabbitt.com, an ActionScript heavy site, from a partial site to completion.
- Freelance videographer for Bald E-Gal Productions. Shot, lit, directed and processed digital video footage for a team based, cross platform (Mac and Windows environments) project.
- Web designer for Bald E-Gal Productions. Built a blog site for multiple users to contribute to, also a simple straight forward site displaying video.
- Independently developed and produced animated graphics, made DVD menu's, edited video, edited and created audio, added video effects, designed flyers, and worked with a publisher to achieve a finished DVD.
- Developed multiple sites for image-quest.com. Flash based, HTML, Wordpress, & PHP sites. Given designs by a graphic designer and made them into functioning live web sites.
- Lead developer of minnesotaflyway.com, and became a contributing member with continuing improvement of the site as well as a content contributor as a photographer, videographer, and writer.
